January 9, 2018

Mr. Jeremy Deal
JDP Capital Management, LLC
928 Fort Stockton Drive, Suite 207
San Diego, CA 92103

Dear Jeremy,

We have audited the financial statements of J. Deal Partnership I, L.P. (the "Fund") as of and for the year ended December 31, 2017 and have issued our report thereon dated January 9, 2018. Professional standards require that we advise you of the following matters relating to our audit:

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated October 9, 2017, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in conformity with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of its respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the Fund solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team and our entire firm have complied with all relevant ethical requirements regarding independence.

Member of msi Global Alliance Independent Legal & Accounting Firms

Qualitative Aspects of Accounting Practices

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the Fund is included in Note 1 to the financial statements. There have been no initial selection of accounting policies and no changes in significant accounting policies or their application during the year ended December 31, 2017. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

There are no sensitive accounting estimates affecting the financial statements.

The appropriateness of accounting policies considers the need to balance the cost of providing information to the users with the likely benefit to users of the Fund's financial statements. Although objective criteria have not been developed to aid in the consistent evaluation of the quality of the Fund's accounting principles, policies and practices, we will discuss with you the quality of the Fund's accounting principles, policies and practices as you may request.

Recent Accounting Pronouncements

We are not aware of any recent pronouncements that may affect the Fund.

Difficulties Encountered in Performing the Audit

We did not encounter any difficulties in dealing with management relating to the performance of the audit.

Corrected and Uncorrected Misstatements

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly insignificant, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures and the financial statements as a whole.

There were no material misstatements identified during our audit procedures either individually or in aggregate that would affect the financial statements as a whole. Managements deems the effect of the uncorrected misstatements below to be immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the Fund's financial statements or the auditors' report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management, which are included in the management representation letter dated January 9, 2018.

Management Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings or Issues

In the normal course of our professional association with the Fund, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, business conditions affecting the entity, and business plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the Fund's auditors.

We are not aware of other documents that contain the audited financial statements.

Internal Control

In planning and performing our audit of the financial statements of J. Deal Partnership I, L.P., as of December 31, 2017, in accordance with auditing standards generally accepted in the United States of America, we considered its internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the Fund's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Fund's internal control.

Our consideration of internal control over financial reporting is for the limited purpose described in the preceding paragraph and is not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Fund's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet

important enough to merit attention by those charged with governance.

This letter is intended solely for the information and use of management, and others within the organization and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

SPICER JEFFRIES LLP

J. DEAL PARTNERSHIP I, L.P.

INDEPENDENT AUDITORS' REPORT

To the Partners of
J. Deal Partnership I, L.P.

We have audited the accompanying financial statements of J. Deal Partnership I, L.P. (the "Fund"), which comprise the statement of financial condition, including the condensed schedule of investments, as of December 31, 2017 and the related statements of operations and changes in partners' capital for the year then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Fund's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of J. Deal Partnership I, L.P. as of December 31, 2017, and the results of its operations and changes in partners' capital for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

J. Deal Partnership I, L.P. (the "Fund") is a limited partnership organized on February 14, 2008 under the laws of the State of California for the purpose to trade and invest in a wide range of investments, including options and other kinds of investments. The Fund commenced operations on October 3, 2011. The Fund's activities are managed by JDP Capital Management (the "General Partner"), a California limited liability company.

The Fund is research-based and value-oriented. It has three primary objectives: capital preservation, long-term capital appreciation in excess of market indices (S&P 500), and limitation of downside risk. This might involve a highly concentrated portfolio and acting as an activist shareholder to invoke change in a portfolio company to unlock value.

The term of the Fund shall continue indefinitely unless dissolved as described in the Fund's limited partnership agreement.

Interests offered to investors are without registration under the Securities Act of 1933, as amended, or the securities laws of any state, in reliance on the private offering exemption contained in Rule 506 of Regulation D issued under the Securities Act of 1933 and in reliance on similar exemption under applicable state laws. Under Rule 506 and certain state laws, the Fund must determine that a person, or a person together with a purchaser representative, meets certain suitability requirements before offering to sell interests to such an individual.

Basis of Presentation

J. Deal Partnership I, L.P. is an investment company and follows the accounting and reporting guidance in FASB Topic 946

Basis of Accounting and Trading and Valuation of Securities

The Fund records its securities transactions on a trade-date basis. Realized gains or losses are recorded upon disposition of investments calculated based upon the difference between the proceeds and the cost basis determined using the specific identification method. All other changes in the valuation of portfolio investments are included as changes in the unrealized appreciation or depreciation of investments in the statement of operations. Dividend income and expense are recorded on the ex-dividend date and interest income and expense are recorded on the accrual basis.

***NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)*

Basis of Accounting and Trading and Valuation of Securities *(continued)*

The Fund values its investments in accordance with Accounting Standards Codification 820 – Fair Value Measurements ("ASC 820"). Under ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants and the measurement date.

In determining fair value, the Fund uses various valuation approaches. ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Fund. Unobservable inputs reflect the Fund's assumption about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access. Valuation adjustments and blockage discounts are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors, including the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by the Fund in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined by the lowest level input that is significant to the fair value measurement.

***NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)*

Basis of Accounting and Trading and Valuation of Securities *(concluded)*

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Fund's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Fund uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

The Fund values investments in securities that are freely tradable and are listed on a national securities exchange or reported on the NASDAQ national market at their last sales price as of the last business day of the year.

The Fund values investments in restricted securities at a discounted amount of the last sales price of the last business day of the year accreted based on the amount of time until the restriction is lifted.

Many cash and over-the-counter (OTC) contracts have bid-and-ask prices that can be observed in the marketplace. Bid prices reflect the highest price that the marketplace participants are willing to pay for an asset. Ask prices represent the lowest price that the marketplace participants are willing to accept for an asset. For securities whose inputs are based on bid-ask prices, the Fund's valuation policies require that fair value be within the bid-ask range. The Fund's policy for securities traded in the OTC markets and listed securities for which no sale was reported on that date are valued at their last reported "bid" price if held long, and last reported "ask" price if sold short. The Fund considers these investments as Level 1 securities for active markets and Level 2 securities for thinly traded markets.

The industry classifications included in the condensed schedule of investments represent the General Partner's belief as to the most meaningful presentation of the classification of the Fund's investments.

Short Sales

The Fund may sell a security it does not own in anticipation of a decline in the fair value of that security. When the Fund sells a security short, it must borrow the security sold short and deliver it to the broker-dealer through which it made the short sale. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in amount, will be recognized upon the termination of the short sale.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

Income Taxes

The financial statements do not include a provision for income taxes because the Fund is not a taxable entity and its partners are taxed on their respective share of the Fund's earnings.

The Fund is required to determine whether a tax position is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any tax related appeals or litigation processes, based on the technical merits of the position. The Fund files an income tax return in the U.S. federal jurisdiction, and may file income tax returns in various U.S. states. The Fund is not subject to income tax return examinations by major taxing authorities for years before 2014. The tax benefit recognized is measured as the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized results in the Fund recording a tax liability that reduces net assets. However, the Fund's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof. The Fund recognizes interest accrued related to unrecognized tax benefits and penalties related to unrecognized tax benefits in income taxes payable, if assessed. No interest expense or penalties have been recognized as of and for the year ended December 31, 2017.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - LIMITED PARTNERSHIP AGREEMENT

Allocation of Partnership Income

Net profits and losses are allocated to all partners in proportion to their relative beginning capital balances, as defined. If such allocations of net losses would result in a negative capital balance in the account of any limited partner, such losses will be allocated to the General Partner. At the end of each fiscal year (or a shorter period in certain circumstances), the General Partner receives a performance allocation equal to 25% of each limited partner's share of net profits for such year. However, the performance allocation is subject to both a 6% annualized hurdle rate and a high water-mark. If a limited partner has any prior net losses from previous periods, the General Partner will not receive a performance allocation until such limited partner is allocated net profits to recoup the net losses. The General Partner may waive or reduce the performance allocation at its discretion. The General Partner earned a $419,687 performance allocation for the year ended December 31, 2017.

NOTE 2 - LIMITED PARTNERSHIP AGREEMENT (concluded)

Capital Contributions and Withdrawals

Capital contributions may be made as of the first business day of each calendar quarter or at any other time in the General Partner's discretion. The minimum initial contribution to the Fund is $250,000 and the minimum additional investment is $50,000. The General Partner, in its sole discretion, may waive the minimum initial or additional contribution amounts. A limited partner may, subject to certain conditions, and on at least sixty (60) calendar days written notice to the General Partner, withdraw all or part of its capital account as of the last day of any fiscal year, or at other times with the consent of the General Partner. If a limited partner is making a complete withdrawal, they are subject to a 10% withholding, pending the audit of the financial statements.

The General Partner may waive the withdrawal restrictions for any limited partner at its discretion. The General Partner also may suspend the limited partners' withdrawal rights under certain circumstances.

Fund Expenses

Professional fee and other expenses represent services for audit, tax, accounting, investment research, and legal. This fee also includes the expense for the preparation of quarterly investor statements, organization costs, broker clearing, and bank fees.

NOTE 3 - RELATED PARTIES

The Fund pays a quarterly management fee of 1.5% per annum to the General Partner based upon each limited partner's capital account balance. The management fee is computed and payable quarterly in advance on the first business day of each fiscal quarter. The General Partner, in its sole discretion, may agree to waive or reduce the management fee rate for certain partners. The Fund incurred management fees of $146,176 for the year ended December 31, 2017.

Certain limited partners are affiliated with the General Partner. The aggregate value of the General Partner's and affiliated limited partners' share of the Fund's capital as of December 31, 2017 was $10,208,152.

NOTE 4 - DUE FROM BROKER

Due from broker represents monies due from the custodian broker from settled and unsettled trades. The Fund has a policy of reviewing, as considered necessary, the credit standing of each broker with which it conducts business. The due from broker amount is subject to interest at the prevailing interest rates charged to the custodian broker and may be partially restricted at any time for the market value of marketable securities sold, not yet purchased, until the Fund purchases the securities sold.

NOTE 5 - FAIR VALUE MEASUREMENTS

The Fund's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with ASC 820. See Note 1 for a discussion of the Fund's policies.

The following table presents information about the Fund's assets measured at fair value as of December 31, 2017:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balances as of December 31, 2017
Assets:				
Common stocks:				
Consumer Services	$ 3,499,000	$ -	$ -	$ 3,499,000
Public Utilities	2,571,600	-	-	2,571,600
Financial	-	618,800	-	618,800
Technology	893,371	-	-	893,371
Warrant				
Financial	5,491,500	-	-	5,491,500
Options				
Public Utilities	83,316	-	-	83,316
	$ 12,538,787	**$ 618,800**	**$ -**	**$ 13,157,587**

The Fund did not have any significant transfers between Level 1 and Level 2 during the year ended December 31, 2017.

NOTE 5 - FAIR VALUE MEASUREMENTS*(concluded)*

The Fund holds investments that exceed 5% of partners' capital. The Fund's investments that constitute more than 5% of partners' capital as follows:

Investment	Number of shares/warrants	Fair Value	Percentage of Partners' Capital
Bank of America A - warrants	200,000	$ 3,512,000	25.33
Bank of America B - warrants	925,000	1,979,500	14.28
California Resources Corporation	40,000	777,600	5.61
Carrols Restaurant Group	150,000	1,822,500	13.15
Liberty Broadband Corporation	10,000	850,500	6.13
RIB Software SE	30,000	893,371	6.41
TerraForm Global, Inc.	150,000	1,794,000	12.94
Teekay Offshore Partners, LP	350,000	826,000	5.96
Total investments in excess of 5% of partners' capital		12,455,471	89.81
Total investments not in excess of 5% of partners' capital		702,116	5.09
Total investments in marketable securities, at fair value		**$ 13,157,587**	**94.90**

The following table presents additional information about Level 3 assets measured at fair value. Both observable and unobservable inputs may be used to determine the fair value of positions that the Fund has classified within Level 3 category. As a result, the unrealized gains and losses for assets within the Level 3 category may include changes in fair value that were attributable to both observable and unobservable inputs.

Changes in Level 3 assets measured at fair value for the year ended December 31, 2017, are as follows:

	Level 3 Beginning Balance January 1, 2107	Net Transfers In and/or (Out) of Level 3	Purchases	Sales and Settlements	Realized and Unrealized Gains (Losses)	Level 3 Ending Balance December 31, 2017	Change in Unrealized Gains (Losses) for Investments Still Held at December 31, 2017
Investments:							
Common stocks	$ 436,800	$ (580,840)	$ -	$ -	$ 144,040	$ -	$ -

NOTE 6- FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISKS AND CONTINGENCIES

In the normal course of business, the Fund enters into various financial transactions. The execution of these transactions may result in off-balance sheet risk or concentration of credit and price risk. The Fund records securities transactions on a trade-date basis and, therefore, is exposed to credit risk in the event that the Fund's counterparties are unable to fulfill contractual agreements on the date of settlement.

Price risk is comprised of interest rate, market and currency risk. Interest rate risk is the risk that the value of financial instruments (mainly investments) may fluctuate as a result of changes in market interest rates. Market risk is the risk that the market values of investments change due to changes in market conditions. Investments in equities are subject to market and interest rate risk. Currency risk is the risk that the value of instruments may fluctuate as a result of changes in foreign exchange rates. As of December 31, 2017, substantially all assets and liabilities of the Fund were denominated in United States dollars.

The Fund may engage in short selling activities, wherein it borrows securities and sells them to third parties. Until the Fund covers its short sales, it is exposed to market risk to the extent that subsequent market fluctuations may require securities sold, not yet purchased, to be acquired at prices which may be significantly higher than the market value reflected in the statement of financial condition.

All securities transactions of the Fund are cleared by two United States registered broker-dealers. At December 31, 2017, all investments and due from broker are positions with these brokers and the Fund had all its individual counterparty concentration with these brokers.

The Fund's financial instruments, including due from brokers, cash, and accrued expenses are carried at amounts which approximate fair value due to the short-term nature of these instruments. Investments are valued as described in Note 1.

NOTE 7 - FINANCIAL HIGHLIGHTS

The information presented below represents the financial highlights applicable to the limited partners of the Fund taken as a whole for the year ended December 31, 2017.

Operating Performance:

Total return before performance allocation to General Partner	22.73	%
Performance allocation to General Partner	(4.18)	
Net return after performance allocation to General Partner	**18.55**	**%**

Ratios to Average Limited Partners' Capital:

Total expenses	1.74	**%**
Performance allocation to General Partner	4.18	
Total expense and performance allocation to General Partner	**5.92**	**%**
Net investment loss	**1.29**	**%**

The above return calculations assume that a partner's capital interest was invested for the entire period indicated above. An individual's total return and ratios may vary from these returns and ratios based on the timing of capital transactions and variations in management fees and incentive arrangements.

NOTE 8 - SUBSEQUENT EVENTS

The Fund has performed an evaluation of subsequent events through January 9, 2018 which is the date the financial statements were available to be issued. The evaluation did not result in any subsequent events that requited disclosure and/or adjustments.
